

### REMARKS

This Amendment is submitted in response to the Notice of Allowance, dated April 3, 2008. The above-identified application was submitted with informal drawings, which were accepted by the Examiner. However, applicants would prefer that formal drawings be utilized for publication of the patent. Accordingly, four (4) replacement sheets of formal drawings are enclosed.

While preparing the formal drawing sheets, the undersigned attorney discovered that Fig. 4 included two functional blocks that were both labeled with the numerical identifier "76". Accordingly, the enclosed replacement drawing sheet that includes Fig. 4 has been amended to renumber one of the blocks with the numerical identifier "77". Additionally, paragraph no. [0029] in the written description has been amended to reflect the renumbering of the functional block. These amendments do not add any new material to the application, but merely correct a minor typographical error.

It is respectfully requested that the application be amended to include the enclosed amended formal drawings and amended paragraph no. [0029]. It is further respectfully requested that the formal drawings and amended paragraph no. [0029] be published with the patent when it issues.

Respectfully submitted,

John B. Molnar

Reg. No. 31,914
